DETAILED ACTION

The Amendment filed 7/8/10 has been received, entered into the record, and carefully considered. The following information provided in the amendment affects the instant application by:

Claims 1 and 3 have been amended.

Claim 2 has been cancelled.

Remarks drawn to rejections of Office Action mailed 11/10/09 include:

112 2nd paragraph rejections have been overcome by applicants' amendments and have been withdrawn.

103(a) rejection which has been overcome by applicants' amendments and has been withdrawn.

An action on the merits of claims 1 and 3-14 is contained herein below. The text of those sections of Title 35, US Code which are not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Newly amended claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Newly amended claim 1 is confusing wherein the claim is drawn to:

“A process for the purification of an organic solution of a nucleoside phosphoramidite or nucleoside H-phosphonate oligonucleotide synthon and lower molecular weight impurities, which comprises...”

It is unclear as to what is being purified by the current preamble as it reads as though an organic solution of a synthon and impurities are purified from some other substance. The claim, if so intended, would be more favorably written as:

“A process for the purification of a nucleoside phosphoramidite or nucleoside H-phosphonate oligonucleotide synthon from an organic solution of a nucleoside phosphoramidite or nucleoside H-phosphonate oligonucleotide synthon and lower molecular weight impurities, which comprises...” and would overcome the instant rejection and place the case in condition for allowance.

All claims which depend from an indefinite claim are also indefinite. *Ex parte Cordova, 10 U.S.P.Q. 2d 1949, 1952 (P.T.O. Bd. App. 1989).*

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
